

MAILROOM PRODUCTIVE MAILING SYSTEM IJ-80

The Neopost IJ-80 comes with all the speed, technology and options to increase mailroom output and keep costs in check.

- Envelope processing speeds of up to 185 letters per minute
- Process mixed mail up to 16mm thick
- Track expenditures for up to 500 departments
- PC interface for exporting data and reports

BETTER MAIL MANAGEMENT WITH ADVANCED ACCOUNTING
If you're looking for better control of your mailing expenditure, the IJ-80 makes it simple. Connect it to a PC equipped with Neopost's postage management software so you can track, allocate and analyse your postal costs by department, postal rates and time periods.

NEOPOST ONLINE SERVICES

Neopost Online Services give users the ability to improve business efficiencies. Rates, slogans and software updates can be downloaded easily and quickly. Online Services allows easy upgrades to additional features such as increased weight capacity or differential weighing. Neopost Online Services will also provide ink alerts to the user, sending a reminder e-mail when a replacement is required. Online services also provides Neopost with the ability to monitor your machine remotely and can provide solutions quickly if a problem should arise.

ONE-TOUCH RE-CREDITING WITH CREDIFON®

Many re-crediting systems are slow and complicated, often requiring long calls. The IJ-80 helps you avoid all that. Neopost's Credifon® system refills your machine with postage in just a few key strokes, getting you back to business in seconds – 24 hours a day, 365 days a year. Just dial the number, punch in your pin and key in the value. It couldn't be simpler!

ELIMINATE THE RISK OF RETURNED POSTAGE AND AVOID OVERSPENDING ON OUTGOING MAIL.

Irish postage rates are calculated based on the shape, weight and size of your mail piece. Depending on your Neopost Franking Machine model, postage is calculated automatically by weight only or by weight and size. All postage rates are in accordance with An Post guidelines, ensuring that your mail is delivered and overspending/underspending is avoided.

WHY CHOOSE NEOPOST?

Neopost is a world leader in mailing and logistics solutions. Our innovative solutions bring simplicity and efficiency to your mailing process to make your business run better. IJ-80 THE HIGH PRODUCTIVITY MAILING SYSTEM FOR MEDIUM SIZED MAILROOMS

The professional modular mailing solution for expanding needs

WE VALUE YOUR MAIL

MAILROOM PRODUCTIVE MAILING SYSTEM IJ-80

VERSATILITY AT THE HEART OF YOUR MAILROOM

The Neopost IJ-80 combines speed, modularity and advanced technology to deliver a mailing solution that's simple and effective. It can be the hub of a sophisticated mailing system, or just a fast, robust franking machine for your mailroom. It handles walk-up mail as easily as high volume runs or mixed daily loads of letters or packages. With the IJ-80, you can configure a system that fits your mailing profile perfectly. Its modular accessories quickly and easily accommodate your needs as they grow or change – meaning you only pay for the capabilities you need.

The IJ-80 is simple to operate yet durable enough to stand up to the demands of the toughest environments.

MAXIMUM FLEXIBILITY IN HANDLING ENVELOPES

The IJ-80 handles envelopes as big as C4, in either portrait or landscape, which can be sealed or not according to your needs. Its high-capacity feeder has an adjustable side guide to hold your large stacks of mail in place, so high-volume, same-sized mailings are dealt with in minutes.

MODULARITY THAT MEETS YOUR NEEDS AS THEY EVOLVE

The IJ-80 can interface with integrated weigh platforms or additional scales to automatically calculate and apply correct postage to items weighing up to 30kg. You can even weigh a selection of items using differential weighing, which calculates the postage for each piece removed from the platform. Neopost's i-Weigh™ dynamic scale checks weight as items of up to 1kg pass to the machine, automatically and accurately adjusting the postal rate. Posting larger items is made easy with the built-in label dispenser or optional thermal roll tape dispenser. You can also add a conveyor-stacker to neatly collect your mail – saving even more time and boosting mailroom productivity.

PROJECT A QUALITY IMAGE

100% inkjet and 100% digital technology gives you sharp, clear printing that enhances the professional look of your organisation. A choice of nine customised slogans can be loaded to the machine and you can add your company name, greetings, slogans – even logos and photographs.

EFFICIENCY AT YOUR FINGERTIPS

The IJ-80 is controlled through a clear, intuitive touch screen that's big enough to read easily and doesn't have you hunting around a tiny keyboard. It's simple for first-time users and fast for experienced operators, giving direct access to important information and one-touch recall of regular jobs.

GET MORE IMPRESSIONS FOR LESS

The long lasting ink cartridge reduces operating and supply costs, producing a high volume of impressions per cartridge, and can be conveniently replaced in seconds.

INTEGRATES INTO YOUR MAILING SYSTEM

When linked to a folder inserter, the IJ-80 gives you all the advantages of a complete mailroom solution with continuous, ready to mail processing. It allows your mail to be folded, inserted, sealed, weighed and franked all in one automatic process, and is perfect for mailshots and other marketing activities.

PROCESS UP TO 11,100 ITEMS PER HOUR

FEED AND SEAL MAIL UP TO 16MM THICK

ACCURATELY WEIGH MAIL IN-MOTION AND APPLY EXACT POSTAGE

CONTROL AND ALLOCATE POSTAL COSTS FOR UP TO 500 ACCOUNTS

CONNECT TO A PC TO TRACK, ANALYSE AND MANAGE POSTAL EXPENDITURES
